should be self-supporting & that the Students should pay for all the services rendered to them, the charges of supervision & control being borne by Govt. In this view the pay of the extra cook should be met by the boarders, while the extra person necessary to keep the building clean & maybe paid for by Govt. The room rent if any recovered from the boarders should also be credited to Govt., Govt. meeting any expenditure necessary to keep the house in suitable repair.

9. Attached we have been paying for all the servants engaged as far as can be made out from the statement of expenditure. That, I presume, accounts fairly for the very low rate of 5 Rs being sufficient as boarding charges for each occupant.

10 As the students of the Normal School are mostly poor teachers on small pay, they should be treated liberally. Their want of means is also indicated by the low cost of the feeding ~~class~~ ^{if} they have

11 I do not know what room rent is charged to each occupant, but it should be very trifling as ~~the~~ the highest any month was 3 Rs 5 As in the aggregate. It may be little hardship ^{to the hostels} to credit it to Govt, but I think that we should stick to the rule hitherto followed of allowing it to go ~~into~~ ^{into} the general funds of the hostel

12 We might acquire the additional house as proposed by the I.C. or if there is no money available ^{this year}, we might take it for rent

13 I think the additional servants are necessary, and we may give also the grant for 2 more as asked for

SIR

With reference to your letter No. 8974
Ed 406-09-2
of the 7th ultimo regarding the extension of the
building of the Mohammedan Students' Home,
Mysore, I have the honor to inform you that
the building in which the Students' Home is
held belongs to Government and the present
number of boarders is 41. The accommodation
available in the building is for 30 boarders only,
but by partitioning the hall into rooms by means
of latties 11 more boarders have been admitted.
Taking into consideration the number of students
to whom admission was refused for want
of room during the last three years, the Managing
Committee think that it is necessary to provide
accommodation for 54 boarders in all.
2 The Home is bounded on two sides by roads,
and on the remaining two sides by private houses,
so that additional accommodation can be secured.

by acquiring one of the two adjacent houses. Of the two houses, one is not for sale. The other, which is to the west of the Home and belongs to the Sivasamudram Jagherdar is for sale and its value will be about Rs 2600 the amount for which the Jagherdar purchased it. This house is also available for rent. It is now let out on a monthly rent of Rs 8/7, but if the building be improved at the cost of the owner and then given for the Home a higher rent will have to be paid. The Committee members however, are of opinion that it is preferable to acquire it for the use of the Home. It is next to the present building of the Home and is convenient for purposes of management of the Home.

- 3 The Home contains one Cook and one peon at present and considerable difficulty is felt in carrying on the ordinary work of cooking &c of the Home. An addition to the present number of boarders necessitates the employment of more servants. The Managing Committee request an increase of Rs 15/7 to the monthly grant of Rs 25/7 now given in aid of the Home in order to employ an additional Cook on 8 Rs and an additional peon on Rs 7 a month.
- 4 Under these circumstances I have the honour to recommend that Government may be pleased to sanction the acquisition of the house and its improvement to adopt it for the Home and to raise the monthly grant to Rs 40/7 to meet extra charges for additional establishment.

I have the honour to be,
Sir,
your most obedient servant,
J. Wren
